

When we put our ear to the ground, we can feel the vibrations and the rumbling of the earth. The seismic indicators of a great awakening are here, if you listen. It's off the charts. The ground is moving. This is going to be a 10 on the Richter Scale. I see a great, great pressure under the earth forcing its way out onto the surface, as huge gashes rip the ground open and red-hot lava erupts forth. The revival we were born for is now imminent; it is almost upon us. So, put your head between your knees and pray. The baby is in the birth canal, the right way around, and the head is engaged. We have passed through the transition period and now we are in the final stages of pushing this baby out. Intercessors, you need to arise and now begin to push! Get ready to see the Spirit of God come upon so many Everyday Evangelists, who will run with power all the way to Jezreel. The time has arrived. 'And the earth shall be filled with the true knowledge of God'. Amen
